### ABOUT ME

---

I am an award-winning Producer/Director with a variety of experience in high-quality productions. My experience ranges from unscripted documentaries and online content to studio recorded broadcasts & highlights shown across major channels such as BT, BBC, ITV, Red Bull, and Channel 4.

I am responsible for developing concepts, scripts, directing and producing content - as well as editing and edit producing numerous projects. I thrive on being involved in all aspects of programming.

Producing exciting, original content to a high standard is something that I genuinely love doing, whether the brief asks for out of the box content or to create a new edge to a pre-existing format. I am able to lead and/or work cohesively within a team and am able to adapt to last minute changes efficiently and effectively.

I am bilingual, using spoken and written Welsh frequently in both my professional and personal life.

---
